

WOLF 7500 DT IS SUITABLE FOR

WOOD

Wood waste (65 t/h)
Tree roots (40 t/h)
Green waste (35 t/h)
Cable reels
Pallets (50 t/h)
Railway sleepers

WASTE

Tyres
Construction waste
Bulky waste
Household waste
Industrial waste
Paper (rolls)

METALS

Aluminium
End-of-life
vehicles
Household
appliances
Car engines

ABOUT WOLF SHREDDERS

We proudly present our new brand! We have more than 20 years of experience in the recycling industry and with all the knowledge we gathered over the years, we developed a new shredder.

Herewith we would like to give you an impression of our WOLF 7500 DT shredder, which can benefit your company as well. Whether you are shredding metal, wood, industrial waste, construction and demolition waste or other materials, our shredders are built to meet all challenges.

Our team of experts will be happy to advise you on choosing the best shredder for your company.

7500 DT
DIESEL TRACKS

PRIMARY SHREDDER

FEATURE

DISCOVER THE POWER OF OUR NEXT LEVEL SHREDDERS

● TILTABLE HOPPER

For a continuous material feed and optimal capacity

● WOLF SHAFTS WITH ANGLED KNIVES

Designed especially to shred the most difficult materials. At the maximum hydraulic pressure the shafts will automatically run backwards

● FERROUS METAL SEPARATOR

Magnet is easily adjustable in height

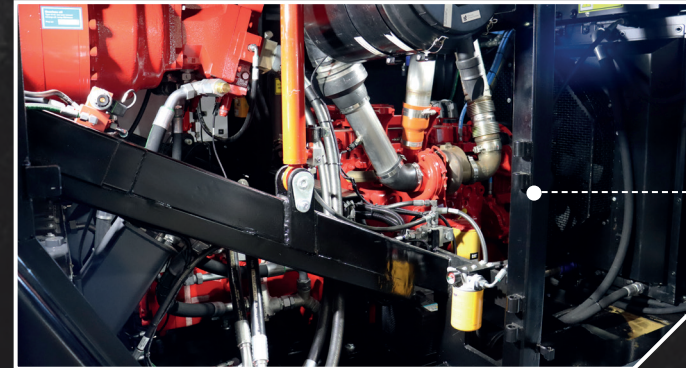

● EASY TO TRANSPORT

The shredder can be folded in easily and quickly, and can be transported on a low bed trailer

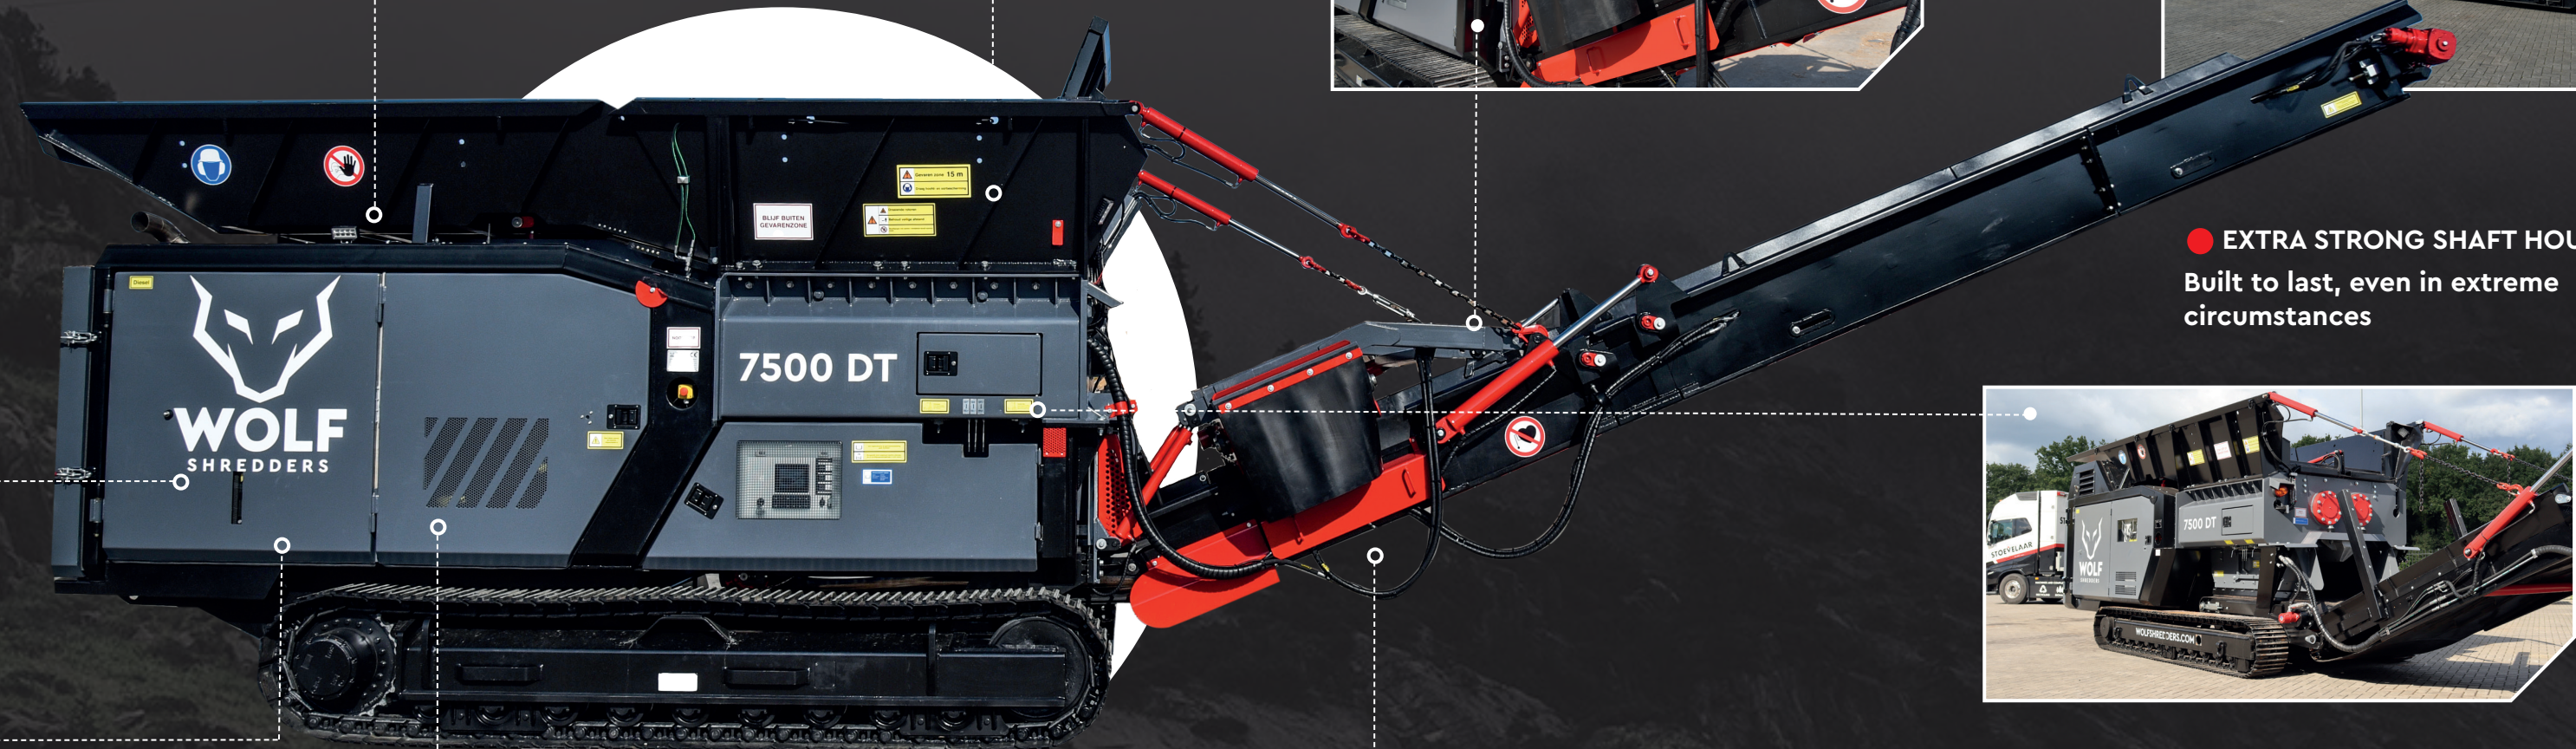

● LARGE MOTOR COMPARTMENT

For easy access to all components

● CAT C9.3B 375 HP / 280 kW

Diesel motor

● EXTRA STRONG SHAFT HOUSING

Built to last, even in extreme circumstances

● CONTROL SYSTEM

Efficient control system, remotely controlled

● SIMPLE CONTROLS

The shredder can easily be controlled remotely

● 2-PIECE DISCHARGE CONVEYOR BELT

Lower conveyor belt and discharge conveyor belt both have steel cord layers
