The **Morbark Wood Hog 3000 XP** is a professional shredder for processing waste wood, green waste and biomass.
The shredder is equipped with a European undercarriage (road legal).

The shredder has a special designed infeed system for maximum production and efficiency.
An aggressive down force infeed roll pulls the material in quickly.
The infeed system including up-turn rotor is designed for large volumes and dust suppression.

Dimensions:

- Width 2,51 m
- Transport height 3,78 m
- Transport length 10,66 m
- Weight approx. 24,5 ton

Engine:

- CAT C13 580 PK
